PROFESSIONAL SUMMARY

Data Analyst with 2 years of experience delivering SQL-driven analytics, interactive dashboards, KPI reporting, and data automation solutions in business environments. Skilled in Power BI, Tableau, Python, Excel, ETL processes, DAX, and Power Query to transform complex datasets into actionable insights. Proven ability to improve reporting accuracy, optimize SQL performance, automate workflows, and support data-driven decision-making across cross-functional teams.

CORE SKILLS

Data Analytics: Data Cleaning, Data Transformation, Exploratory Data Analysis, KPI Reporting, Business Intelligence, Forecasting, Trend Analysis

Programming & Databases: SQL, Python, MySQL, PostgreSQL

Visualization Tools: Power BI, Tableau, Power Query, DAX, Excel, Matplotlib

Python Libraries: Pandas, NumPy

Data Engineering: ETL Pipelines, Data Validation, Query Optimization, Data Extraction, Data Modeling

Tools & Platforms: Jupyter Notebook, GitHub, VS Code

PROFESSIONAL EXPERIENCE

Data Analyst

PricewaterhouseCoopers (PwC) | Aug 2023 – Aug 2025

- Designed and maintained interactive Power BI and Tableau dashboards that improved business reporting visibility and KPI tracking for operational teams.
- Wrote and optimized complex SQL queries to extract, clean, and analyze datasets containing 3,000+ records, reducing report generation time by 25%.
- Developed KPI dashboards using Power BI, DAX, and Power Query to monitor operational metrics, automate reporting workflows, and improve business visibility.
- Created calculated columns, measures, and data models using DAX and Power Query to support advanced dashboard reporting and analytics.
- Improved reporting accuracy through data cleaning, validation, and transformation processes across multiple business datasets.
- Assisted in developing ETL workflows for efficient data extraction, transformation, and loading, improving reporting consistency and automation.
- Enhanced SQL query performance using indexing and optimization techniques, improving data retrieval efficiency for reporting operations.
- Collaborated with stakeholders to gather reporting requirements and deliver data-driven analytical solutions aligned with business objectives.
- Maintained data governance and reporting standards to support compliance and data accuracy initiatives.

PROJECTS

Credit Card Spending Behavior Analysis

SQL | Python | Tableau | Power BI | Excel

- Analyzed 3,000+ customer transaction records using SQL and Python to identify spending behavior, category trends, and city-wise purchasing patterns.
- Built interactive Power BI and Tableau dashboards to visualize monthly spending trends, customer segmentation, and category performance metrics.
- Performed data cleaning, transformation, and exploratory data analysis using Pandas, NumPy, and Excel to improve dataset quality and reporting reliability.
- Automated reporting workflows using Python and SQL, reducing manual reporting efforts and improving data processing efficiency.
- Generated actionable business insights that supported customer behavior analysis and data-driven decision-making.

Retail Sales & Inventory Analysis

SQL | Tableau | Excel | KPI Reporting

- Analyzed retail sales and inventory datasets to identify revenue trends, product performance insights, and inventory movement patterns.
- Developed dynamic Tableau dashboards with KPI metrics and interactive filters for revenue monitoring and inventory tracking.
- Performed data extraction, validation, and transformation processes to improve reporting accuracy and operational visibility.
- Created analytical reports for sales forecasting, inventory optimization, and category-wise business performance evaluation.

CERTIFICATIONS

- Microsoft Certified: Power BI Data Analyst Associate (PL-300) — Pursuing
- SQL for Data Analytics — Udemy
- Data Analytics Job Simulation — Deloitte

EDUCATION

Bachelor of Technology (B.Tech) – Electrical and Electronics Engineering

Shri Vishnu Engineering College for Women | 2023

CGPA: 8.1
